— ALL PROJECTS START WITH A \$299 STRATEGY SESSION —

*Inquire at least one week in advance*

Here's how it works. My time is valuable, both to me and to you—so I don't give it away for nothing. Other marketing folks are fond of offering free consultations and whatnot; I don't do that.

What I offer is a \$299 strategy session. We'll talk about your business, your goals, and how specifically we might achieve them. And we'll get to know each other and see whether we're a good fit to work together. Your strategy session can go for as long as an hour and a half—which if you check further down is a value of \$600.

*\* All dollars are the United States variety. Unless otherwise agreed, payments must be via PayPal.*

— RETAINER WORK —

*Inquire at least two weeks in advance*

Often the best way to approach a project is simply to retain me to do whatever work you need. This works best for small projects where you don't need me to do all that much overall, but you might need me to do a lot of different things, or be quite flexible about the scope.

You pay a non-refundable retainer in advance—and I do any work you need, up to the number of hours you've pre-paid. There is no monthly cycle, since I'm not an evil cellular provider; if you paid for the hours you're entitled to use them, regardless of whether it's on the 15th of the month, the 31st of the month, or the 1st of the next month. My standard retainers are as follows:–

4 HOURS -----	\$1499
8 HOURS -----	\$2999
16 HOURS -----	\$4999
